

Breakthrough Into Deeper Intimacy with God

RORY MAGRATH

- Many Christians have the belief and trust in my salvation, but few seem to really know Him on an intimate level. This was Rory McGraths experience.
- He has written this book, because he believes that anyone can quickly move into the heart-felt relationship with God that we may have heard others speak about. The kind of relationship that is so naturally real, that it appears almost tangible, like God is actually there in the room, or in the car with you.
- For Rory, this level of relationship with our Lord required a process, with promptings and suggestions to follow. In this book he outlines this process step for step, precisely as he did it, including personal examples and worksheets.

AUTHOR BIO

Rory was born in South Africa, and after completing his military conscription he studied for three years as a Medical Tech., then after six years switched careers and went into construction.

From 1990 to 2006, Rory drifted away from the Lord, and for seventeen years his life changed to one of “living hell”. The road back was painful and long but, through it, he experienced an amazing miracle that brought him into the close and personal relationship that he has with God today.

In 2010, he completed a certificate in Bible Theology through SATS (South African Theological Seminary). Rory is married to Pauline and they reside in Leeds, England, where Rory is actively involved in their local church. He works full-time as a Construction Project Manager, whilst in his free time he works to help people overcome various dependencies and guides others to establishing a real relationship with God, as well as continuing to write.

Rory's first book, Breakthrough into Recovery, was published in the UK in July 2018. He has been involved with, and supported, many recovery institutions and has started a few Christian support groups in various churches. With it has come an overwhelming desire to help people experience a deeper, more heart-felt closeness with God. The author can be contacted at: rmagrath2@gmail.com
