

# I Married a Blanket Thief

LONNY CAREY

- Marriage... the very word itself often evokes an emotional response depending, of course, on your own experience. This insightful tale by Lonny Carey shows how real relationships work out on the ground, with all their ups and downs, twists and turns, and highs and lows.
- With endearing honesty and humour, Lonny's account of his friendship through the years with Sara demonstrates that no matter what you are going through in your own relationship you can work things out.
- It's a book for both men and women which includes a unique 'Message to Men' section that husbands should read and their wives will want them to read!
