Live By Design, Not by Default

JIM DUNN

- What makes our Christian journey effective? Jim Dunn argues that our thought patterns and life habits play a major part and either help or hinder us. This book invites you to examine your faith from a fresh perspective and deepen your relationship with Christ and your commitment to His Gospel.
- The Old and New Testament Scriptures show that godly men and women who lived effective lives had certain habits of thought and activity in common. First, they all 'met God'. They had a personal encounter with Him that changed their lives. Then they went on to 'make history'. Their lives had impact for good and for God in varying ways and to varying degrees.
- *Live by Design, Not by Default* is about how our thought patterns and life habits can either help or hinder our effectiveness as Christian people.

AUTHOR BIO

Jim Dunn is a long-term church leader and business professional. He conducts Life Change workshops and is widely recognised as a communicator and skills developer. He is an associate of the Royal College of Science and Technology and a graduate of Glasgow University. He is the author of several books including *The Effective Leader*, *The Life Wise Guide to Work* and *God's Wisdom for your Money*.

ENDORSEMENTS

'Jim Dunn shares the experience of many years. He distils that experience into a number of straightforward but profound challenges, starting with the question, "If you could change just one thing about your life right now, what would it be?"'

Neil Wardrope, CLC International

'Over the last 20 years a stronger Kingdom approach has encouraged Christians not just to develop spiritually and personally but to believe that Christians really can become major players in God's purposes within His world. This book by Jim Dunn is addressing this shift of thinking and encourages the reader towards higher ground.'

Stuart Bell, Senior Pastor of Alive Church and leader of the Ground Level Net
